**Lititz BMX Presents a Special Seaside Bonfire Conversation with Damian X. Fulton:
A Personal and Insightful Discussion on BMX Legends, Damian's Eclectic Work History,
and the Future of BMX Culture in a Fireside BMX Chat (Podcast).**

Lititz, PA – 3/10/2025 – Lititz BMX is excited to announce an exclusive podcast conversation featuring Damian X. Fulton, the legendary creator of *Radical Rick* and icon in the BMX world. In this special episode, set to a seaside bonfire, Damian sits down with Kyle to reflect on his decades-long inner weavings with BMX legend Harry Leary, Damian and Kyle's charity work, and offers an intimate walk through Damian's past while looking toward the future.

The conversation dives deep into Damian's journey and touches on his association with *BMX Plus!*, *Masters of the Universe*, *Mattel*, offering personal insights, and even sharing his experience positioning himself as a "hoity-toity creative director" in the world that nearly parallels the *Mad Men*.

Damian speaks candidly about BMX legend Harry Leary, who passed away nearly six months ago. "45 years of being woven with Harry," Damian reflects, "I know that is a weird way of saying it, but it's what I just heard." He goes on to share fond memories of Leary's legendary career, remarking, "Harry was one of these mythic characters... He was on top for a long time... The guy was a winner..." - What, 50 years? Yeah... Amazing.

Listeners will get a firsthand account of Harry's unmatched legacy and personal anecdotes that shed light on the bond shared between the two BMX icons.

Greg Mathias, Team USA teammate of Harry Leary and a best friend of the BMX legend, adds his endorsement of the conversation, saying, "The podcast is awesome!"

"We're thrilled to have Damian on this podcast and share his personal perspective on BMX and his experiences with Harry Leary," said Kyle A. Huffman, Founder at Lititz BMX. "This is a conversation that both BMX and 80's fans won't want to miss, filled with history, laughter, and inspiring insights."
