

I am standing looking up at Harry Leary's Daylight bike at the National BMX Hall of Fame. Greg Mathias walks up behind me.

- Greg: Nice bike, isn't it?
- Kyle: It sure is. A friend, I have only ever met online, is meeting us here.
- Kyle: He actually donated this bike to the Hall Of Fame. I mean, I made a donation of an old plaque but I can't believe I am looking at this bike. It is amazing. I am excited to meet him in person.
- Greg: Is his name Greg Mathias?
- Kyle: It is... Oh, Greg! Hey, It is nice to finally meet you. This is Anne-Marie.
- Kyle: My wife is meeting up with a friend, so today we are having a Daddy Daughter day instead. Well, Daddy Daughter and Uncle Greg day.

Story of Daylight bike donation:

- Kyle: So this was Harry Leary's Daylight 24" BMX bike that he won the ROC 1 on in 2022?
- Kyle: The paint job is amazing!
- Kyle: I love the American flag theme and the gold lettering and accents just set it off!
- Kyle: Do I have this right? You bought this bike and raced it for 6 months after Harry passed?
- Kyle: You even let Eric Rupe take a spin on it?
- Kyle: Then, you donated it with the 2022 ROC 1 Plate to the National BMX Hall-Of-Fame?
- Kyle: What was it like working with Gork and company to make this donation happen?

- Kyle: Speaking of Harry and Daylight BMX, there is also an interesting story I heard about his 20" Daylight bike too?
- Kyle: Harry had another Daylight that was run over in a parking lot when he was setting up for sprints?
- Kyle: I heard that his replacement 20" started life as the Daylight owner's daughter's personal bike, in which it was loaned to Harry?
- Kyle: Harry fell in love with his 20" Daylight BMX bike so they let him hold onto it?
- Kyle: Harry passed away and this bike was in his car - then stolen, is that about right?
- Kyle: Explain the recovery process that you went through with Rob Porter.
- - What do you think Harry would think of what you had to go through to get the bike back?
- Kyle: The day before he passed, you two were running a clinic right?
- - Would you be willing to briefly walk me through that day?
 - How were things when you parted ways?
- Kyle: Side note... What ever happened to the bike that got ran over?
- Kyle: So what is it like riding a Daylight bike?
- Kyle: They became a sponsor of yours right?
- Kyle: In your thank you for bringing me aboard message to Daylight, you mentioned Richard and Jason's patience with you. Who are Richard and Jason, and what was going on related to their patience with you if you don't mind me asking?

Harry Leary Display Case:

- Kyle: Oh, look at that display case.

- Kyle: This looks to be all Harry Leary related?

HLT Miniature Frame & Fork:

- Kyle: They have the miniature HLT frame and fork that Harry was given while he was in Australia.
- Kyle: Look at the craftsmanship on it, The builder is really talented
- Kyle: Harry kept it on his nightstand?
- Kyle: I am glad Linda donated it.

Harry's cranks:

- Kyle: Check it out Greg, they have some Diamondback HLT cranks and a bag but it looks like those cranks are two different sizes?
 - One is 175mm and the other is 180mm interesting - do you know the story behind that?
- Kyle: I've heard the plate used to pop-off easily - have you ever heard anything about that?
- Kyle: Either way, it is pretty cool to learn about the crank length difference and why

Harry's bobblehead:

- Kyle: Is that a Harry Leary bobblehead?
- Kyle: What's the story behind the bobblehead?
- Kyle: Didn't I see you with one too? In fact you did a Jib-Jab if I am not mistaken.
- Kyle: Is that the same one or did you have two?

- Kyle: Look at that, he is wearing a Fall Risk Racing kit. You used to ride for them, right?
 - What is going on with the company and team now?
 - What is your favorite thing to reflect back on regarding your time with Fall Risk Racing?

1986 Porsche Design Fallnational Plaque:

- Kyle: Oh, over there. That's the donation I made.
- Kyle: Harry's 1986 Porsche Design Fallnational Plaque.
- Kyle: I actually purchased this on eBay.
- Kyle: When I was researching it, I found a picture of him holding it and I knew I had something important that needed to be shared on a scale greater than I can provide.
- Kyle: You inspired me to reach out to Gork.
- Kyle: Gork actually responded to me with pictures letting me know a little more about the race, without prompting.
- Kyle: I sent it in and he did a live unboxing a couple of weeks later for Diamondback days.
- Kyle: It felt good making that donation

Setting Up Coffee:

- It's been great seeing everything with you. I've gotta get Anne down for a quick nap but if you are down for coffee a little later, I would love to pick your brain some more.
- Awesome, it's a date!
